

# MAKE YOUR OWN HAMMERHEAD SHARK BOOKMARK

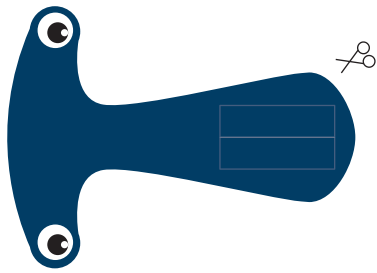

## What you will need:

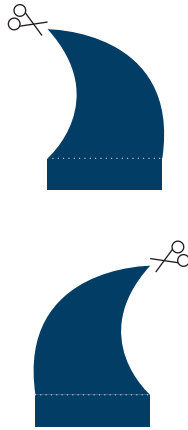

- Hammerhead Shark template
- Cardboard
- Wooden Clothes Peg
- Blue acrylic paint
- Clear glue
- Scissors

## Instructions:

- 1** Start by painting your wooden clothes peg with the blue acrylic paint. Make sure to cover all sides. Set aside to dry.
- 2** Print your Hammerhead Shark template onto cardboard. If you don't have a printer, try copying the shapes on the following page onto cardboard. Cut out the head, dorsal fin and body.
- 3** Use your clear glue to stick the googly eyes onto each side of the Hammerhead Shark's head.
- 4** Once your wooden clothes peg is dry, use your clear glue to stick the head of the Hammerhead Shark onto the top of the peg, and the body onto the bottom of the peg.
- 5** Fold the flaps on the dorsal fins outwards along the dotted line. Glue the fins together (white sides facing inwards). Glue the two flaps onto the head of the Hammerhead Shark.
